CITY OF TRACY

WE ARE HIRING

Utility Mechanic I/II

$87,887.54 - $117,710.06 Annually
Plus *COLAs in 2027 & 2028!*

THE OPPORTUNITY

The City of Tracy's Public Works Utilities Division is currently seeking a highly qualified individual to join their team as their next Utility Mechanic I/II. The ideal candidate for this position must be a highly motivated, self-starter who can work independently. They will need to be able to adapt to changing priorities when necessary and work well under pressure.

Under the direction of the Utility Maintenance Supervisor, the incumbent performs skilled mechanical and technical work to maintain the reliability and efficiency of the City's water, wastewater, and stormwater infrastructure. Responsibilities include maintaining equipment at the 30 MGD Water Treatment Plant, 12.5 MGD Wastewater Treatment Plant, municipal wells, booster stations, reservoirs, sewer lift stations, and stormwater stations to ensure safe and continuous operations.

This position will require the individual to excel in a team-oriented environment in which a commitment to customer service is highly valued. In addition, the successful incumbent will possess excellent communication skills and the ability to work collaboratively with the public and internal customers from all City departments.

MINIMUM QUALIFICATIONS

Equivalent to completion of the **12th grade** plus:

- Utility Mechanic I: Two (2) years of experience in the maintenance and repair of mechanical and electrical machinery. Possession of California Water Environment Association Mechanical Technologist Grade I certification is required within two (2) years of employment. Possession of a Grade I Water Distribution Operator certificate issued by the State Water Resources Control Board is desirable.
- **Utility Mechanic II:** Three (3) years of experience in the maintenance and repair of mechanical and electrical machinery including one (1) year of experience in a Water or Wastewater Treatment Plant facility with specific knowledge of hydraulic pump repair. **Two (2) or more years of experience at level equivalent to Utility Mechanic II is highly desirable as well as experience with pneumatic pump and equipment repair. Possession of California Water Environment Association Mechanical Technologist Grade II certification is required at time of application. Possession of a Grade I Water Distribution Operator certificate issued by the State Water Resources Control Board is required at time of application.**

JOB BENEFITS

- **Competitive pay and exceptional benefits** that reward your talent and dedication
- **Real opportunities for career growth** and long-term advancement
- **Make a meaningful impact** by serving and supporting your local community
- **Build a stable, long-term career** in public service with room to grow
